

**Australian Sonographer Accreditation Registry (ASAR)
Policy & Procedure 7 - Lodging an Appeal Against a Course
Accreditation Decision**

1. Preamble

ASAR's objective is to promote high standards of medical sonography in Australia which includes setting uniform, minimum standards of Sonographer education by assessing and accrediting courses in all disciplines of sonography.

For the purposes of appealing a Course accreditation decision of the ASAR Board of Directors, the rules set out in **Section 12 of the ASAR Constitution: Appeals against removal from the Registry** shall apply in conjunction with the requirements set out in this policy document.

2. Policy Principles

The purpose of this Policy is to ensure that the course accreditation decisions made by the ASAR Board of Directors meet the principles of procedural fairness and that any appeals against an ASAR Board of Director's decision are brought to a satisfactory resolution in a timely manner.

3. Accreditation Principles

The accreditation principles underpinning the approach to accreditation are:

Legitimacy

The accreditation procedure must be legitimate and acceptable to stakeholders. Such legitimacy includes impartiality in relation to particular stakeholder groups; and appropriate respect for the academic autonomy of course providers. The accreditation procedure must also be consistent with current legislation and guidelines.

Validity

The accreditation procedure must be valid in that the procedures are appropriate for assessing the accreditation criteria. These criteria must be evidence-based and explicitly related to the necessary graduate competency outcomes and other specified requirements of accreditation

Efficiency

The accreditation procedure must cover what is necessary and sufficient and not be unnecessarily burdensome for course providers, Course Assessment Committee members or other participants.

Australian Sonographer Accreditation Registry (ASAR)

Policy & Procedure 7 - Lodging an Appeal Against a Course Accreditation Decision

Accountability & Transparency

The accreditation procedure and its outcomes should also be transparent to stakeholders and the public as long as appropriate confidentiality and protection of privacy is maintained.

Procedural fairness

The accreditation Procedure must meet the principles of procedural fairness.

Quality and improvement

The accreditation procedures and criteria should facilitate the development of programs of the highest academic and professional quality and facilitate the continuous improvement of programs over the period for which they are accredited.

Ongoing cycle of review

The accreditation procedures must undergo an ongoing cycle of review to maintain consistency with these principles and for ongoing improvement.

4. Scope

This policy applies to applicants who have had accreditation withheld, withdrawn or where accreditation has been granted with conditions.

This policy applies to:

1. ASAR Board of Directors
2. Course providers/owners that have applied for ASAR course accreditation
3. Appeal Panel Members
4. ASAR Secretariat

5. Definitions

Accreditation

For the purpose of this policy accreditation means that an ultrasound course has been assessed by ASAR as complying with the ASAR Standards for the Accreditation of Sonographer Courses (SASC).

Accreditation Framework

The Accreditation Framework establishes the policies, procedures and standards within which sonography courses are granted accreditation for a specified time, having met transparent and defined requirements. The accreditation framework includes:

- a. the Course Accreditation Application Pack,

Australian Sonographer Accreditation Registry (ASAR) Policy & Procedure 7 - Lodging an Appeal Against a Course Accreditation Decision

- b. supporting policies, procedures, and
- c. Standards for the Accreditation of Sonographer Courses.

Appeal Panel

A group of three appropriately qualified individuals, that considers appeals against an ASAR Board of Directors accreditation decision (resolution).

Appeal Panel Member

An individual, selected by ASAR who has knowledge of Sonography and/or of the relevant specialist discipline, is familiar with accreditation procedures, has a working knowledge of the SASC as well as the type of course applying for accreditation, and has no relationship past or present with the course or the accreditation procedure leading to the decision being appealed.

Australian Sonographers Association

The Australian Sonographers Association (ASA) is the peak body and leading voice for sonographers in Australia. The ASA guides the advancement of the sonography profession to ensure the community has access to quality sonographic services.

Australian Sonographer Accreditation Registry (ASAR)

ASAR accredits ultrasound courses offered by various providers, and establishes the criteria against which all courses are to be assessed. ASAR also maintains a register of accredited medical and student sonographers, with the continuing professional development (CPD) activities of accredited medical sonographers recorded and monitored.

ASAR Constitution

The ASAR Constitution sets out the rules governing the conduct of the organisation.

ASAR Board of Directors

The ASAR Board of Directors is the body appointed by the members of the company to take responsibility for achieving ASAR's objects

The number and nature of Directors is defined in section V of the ASAR Constitution.

Basis of Appeal

In order to have a basis for appeal the course accreditation applicant must demonstrate that the accreditation procedure did not follow proper procedure

**Australian Sonographer Accreditation Registry (ASAR)
Policy & Procedure 7 - Lodging an Appeal Against a Course
Accreditation Decision**

or that the decision of the Board regarding the accreditation outcome was manifestly wrong.

Conditional Accreditation

The ASAR Board of Directors may place a condition on the accreditation of a course, such as the requirement for further monitoring of the course.

Course

A course is the full program of study and experiences required to be undertaken before a qualification recognised under the AQF, and approved by a regulatory authority, can be conferred. Some organisations will also use the term 'program' to refer to a course.

Course Owner

The course owner is the legal entity that is the proponent or applicant for the course for the purpose of establishing a nationally recognised course in the Higher Education Sector.

Course Provider

The course provider is the organisation that issues the testamur for a nationally recognised course and is responsible for learning and assessment including those situations where the course provider enters into contracting or auspicing agreements for the course delivery and assessment.

The course owner and provider may be one organisation.

Evidence

ASAR seeks evidence of an applicant's compliance with the eight SASC. This evidence must be provided in two parts.

- a. Part One - an overview of the course.
- b. Part Two - evidence against each of the SASC

The applicant must address all standards and criteria in their application.

Notice of Appeal

A written notice from the course accreditation applicant requesting an appeal against an accreditation outcome (resolution) decision of the ASAR Board of Directors.

Proper Notice

All correspondence, notices, and other materials exchanged between the participants of an appeal shall be by Certified Mail-Return Receipt Requested or

**Australian Sonographer Accreditation Registry (ASAR)

Accreditation Decision**

by next day delivery, or in the case of electronic correspondence the time and date stamp on the email will be the evidence of when the correspondence was sent and received.

Reaccreditation

For the purpose of this policy reaccreditation is the procedure of renewing accreditation of a course in light of any changes that may have taken place within the industry, course content or course delivery. For this reason, an application for re-accreditation requires the same rigor as an application for accreditation.

Continuing Accreditation is granted to a course when it is re-evaluated at specified intervals.

Resolution

The accreditation outcome decision made by the ASAR Board of Directors in relation to a Course accreditation application.

Statement of Appeal

The substance of the appeal. A statement by the course accreditation applicant that supports their position that the accreditation procedures were not followed or the ASAR Board of Directors erred in the accreditation outcome decision (resolution).

Standards for the Accreditation of Sonographer Courses

The Standards for the Accreditation of Sonographer Courses provide specific criteria for measuring whether a course fulfils the defined requirements. The standards are used to assess every application for accreditation. To be successful an application is required to satisfactorily address all criteria for all eight standards.

Withhold Accreditation

Withhold Accreditation is an action taken when a course seeking initial accreditation is not in compliance with the SASC.

Withdrawal of Accreditation

Withdrawal of Accreditation is an action taken when a course is no longer in compliance with the SASC.
